

SIMPLE, RELIABLE & DISCREET

Compact wastewater treatment plant.

OUR PROFESSIONAL NETWORK GUIDE:

Our WPL Diamond sewage treatment plant is ideal for domestic and commercial properties (1 up to 55 PE) where mains drainage is unavailable.

- **Fully compliant** - to EN12566-3.
- **Meets consent standards** - of 20mg/l BOD; 30mg/l SS; 20mg/l NH₄ as a minimum.
- **Regulation update 1st January 2020** - Consistently meets the General Binding Rules: small sewage discharge to surface water, unlike a Septic Tank.
- **25 years warranty on the tank** - and 2 years warranty on the blowers.*
- **No odour.***
- **Flushest lid to the ground** - on the market.
- **Low user maintenance** - over the lifetime of the tank.
- **Longer emptying cycles** - up to 3 years desludge
- **No internal moving parts** - offering minimal maintenance compared to other processes on the market which are prone to breaking down.

* subject to correct installation, consistent influent conditions and regular plant maintenance as per the manufacturers' instructions.

General Binding Rules -

Homeowners with septic tanks that discharge directly into the surface water will now need to consider the option of replacing with a packaged wastewater treatment plant, when selling a property or upgrading an 'end of life' septic tank.
